

Automation Treasure!™ Expo

Program, Schedule & Exhibitor Directory

CLASSES: 9:30 - 4:40
EXHIBITS: 10:00 - 5:00
TOURS: TBA

COST TO ATTEND: \$20 on site. No cost plus free industry-related gift to those who preregister:
EXHIBITOR INFO: (714) 478-8816 **TO PRE-REGISTER:** Register@AutomationTreasure.com
HOTEL INFO: Treasure Island, 3300 S Las Vegas Blvd. Room reservations: (888) 503-8999

Location	Class Time	Topic Area	Instructor / Class Title
1	9:30 - 10:10	Flow	Fluid Flow Applications in the Industrial Marketplace Dudley Harrelson, Principal Applications Specialist, Foxboro/Invensys
1	11:20 - 12:00	Gas Detection	A Summary of Gas Detection Brent Kleven, Chemical Engineer, Scott Health and Safety
1	12:30 - 13:10	Fittings	Tube Fitting Selection and Installation Jim Whipple, The Fitting Source
1	13:40 - 14:20	Flow, Temp	Measuring BTU/Energy Usage Using Non-Invasive Flow & Temp Sensors Nik Martinov, Regional Manager, FLEXIM AMERICAS Corporation
1	14:50 - 15:30	Emissions	NOX and O2 Monitoring: In Situ vs. Extractive in Power Generation Applications Bill Hill, Horiba Instruments
1	16:00 - 16:40	Emissions	Continuous Emissions Monitoring Systems: Designing and Maintaining for Reliability Tim Kuiken, Cemtek Environmental Inc.
2	9:30 - 10:10	Computing	Industrial Computing in Power Industry Automation Roger Yue, West Regional Manager, Moxa, Inc.
2	11:20 - 12:00	Data/Commun	Ethernet Solutions in Power Industry Automation Jim Toepper, Product Manager, Moxa Inc
2	12:30 - 13:10	Security	The Future of Industrial Security - Function and Focus Dominic Iadonisi, Ruggedcom Inc
2	13:40 - 14:20	Data/Commun	Smart Wireless Solutions Unlock Your Plant's True Potential Ted Hinderman, Emerson Process Management
2	14:50 - 15:30	Safety	Arc Flash: Overview & Analysis, Applicable Standards & Protection Richard Ramirez, Engineer, Control Engineering/National Automation Services, Inc.
2	16:00 - 16:40	Data/Commun	Adapting Sensors with Wireless Cellular- & Web-Based Remote Monitoring George Wolkowsky, AGX Controls / RemoteTank
Location	Class Time	Topic Area	Instructor / Class Title
3	11:20 - 12:00	Valves	Ray Herrera, President, The Valve Shop, Applied Valves & Controls Solenoid Valve Sizing & Selection
3	12:30 - 13:10	Valves	John Saik, Severe Service/Power Industry Manager, Flowserve/Valtek Control Valve Sizing with Emphasis on the Power Industry
3	13:40 - 14:25	Career	Nelson Ninin, President, Yokogawa Process Automation and Green Energy: Ethanol, Ethylene
3	14:50 - 15:30	Career	Rommel Bhullar, Technical Director and Technical Fellow, Fluor Corporation Process Automation Trends: Developing the Control Systems of the Future
3	16:00 - 16:40	Career	Roundtable. Moderator: Seth Olson, C.A.P., P.E. Control System Engineer, Chevron (Part 1) CAP and CCST: Automation and Instrumentation Certifications (Part 2) PE License in Control System Engineering: Requirements and Benefits

RAFFLES IN EXHIBIT HALL

Exh	12:05	12:10
Exh	13:15	13:20
Exh	14:25	14:30
Exh	15:35	15:40
Exh	16:45	16:50

PRIVATE TOUR OF TREASURE ISLAND FACILITIES & CONTROL SYSTEMS

Conducted by TI Facility Manager. Pre-registered attendees have preference if group too large. Meet in exhibit hall at 11:45. Tour begins at 12:00 none. Tour is approx 30 minutes.

EVENING TOUR OF ENTERTAINMENT CONTROL ROOM

Conducted by TI Technical Director. Sign up at registration desk. Meet at 8:15pm for 8:30 show.

SPECIAL HOTEL ROOM RATES FOR EXHIBITORS & ATTENDEES

Mention "Automation Treasure Expo" and receive an exclusive 30% discount off until June 8.

ISA Society & Section Event Calendar for Las Vegas June 2010 -- Las Vegas

June 6-11	ISA 53th Annual Power Industry Conference (POWID)	June 11	Automation Treasure! Expo - Exhibition, Training & Careers
June 9-17	ISA Standards Working Committees	June 11	ISA District Leadership Conference
June 10	ISA Las Vegas Section: Wireless Remote Site Communications	June 12-15	ISA Spring Leaders Meeting
June 10-12	ISA Classroom Training	Ongoing	ISA Online Training Courses

*** Direct links to each of these events with details, schedules & locations found at www.AutomationTreasure.com > ISA Events. ***

Exhibitor Directory

AGX Controls - Robertshaw Controls - Alpha Wireless ATG - Wilkerson Instruments / Pneumatic Control Valves /Thermostatic Valves/ Pressure Regulators/ Vibration Switches & Transmitters/ Capacitance Level Switches & Transmitters / Signal Conditioners/ Alarm Switches / Wireless Alarm , 4-20, Ultrasonic, Pressure, Radar Wireless Transmitters/ WEB Based Data Loggers

Advanced Process Services's work is performed to the highest quality keeping cost and timing in mind to Keep Your Process Flowing. Visit us at www.advprocserv.com or CALL 323-278-6530

APG Analyzer Systems. Independent system integration, capabilities include design, project management, third party analyzer field service and training, field upgrades, on-site evaluation and regulatory assistance for all types of continuous online process, emission and liquid analytical instrumentation.

Applied Valves & Controls is a value added supplier and wholesale distributor specializing in valves, valve automation, and process controls. Master stocking distributor for Asco, Apollo, Dwyer, Hayward, Kunkle, Newmans, Rotork, Saunders, Stockham, Titan, Topworx, Triac, Turck, Velan, Westlock, Xomox.

Blair-Martin Co., Inc. - A manufactures representative for process valves and controls. Today we are featuring Flowserve - Valtek valves as well as Magnetrol Level and Flow transmitters and switches. For a complete listing of the companies we represent please go to our website - www.blairmartin.com.

CEC Vibration Products offers condition monitoring sensors and instrumentation designed for use in power generation, reciprocating equipment, turbo machinery and most harsh environment rotating equipment applications. Products include: velocity sensors, accelerometers, digital switches, load cells, transmitters, signal conditioners, cable assemblies and vibration monitoring systems.

CEMTEK Environmental is a full service Continuous Emission Monitoring Systems integration and service company specializing in NH₃, NO_x, SO₂, CO, CO₂, O₂, PM, THC and Mercury measurements for ambient process and compliance needs. Make us your #1 choice in CEM Systems, CEM Service, Opacity, Flow and Parts.

Central California Instruments. Exclusive representatives & stocking distributors. Diversified Electronics, BelGas, Marsh Bellofram, Chino, Devar Inc, Dwyer, Dynaloc, Flowell, FMC Invalco, Graphic Controls, INOR, KEP, Magnum Pro, Marsh Instruments, Oakton, Perma-Cal Industries, PIC, PIE Practical Instrument Electronics, Precision Digital, Precision Instruments Valves and Manifolds, Pyromation Inc, Ralston Instruments, ReoTemp, Rosemount, United Electric Controls, Winchester.

Don Wolf & Associates, Inc. is a distributor of emissions analyzers, radiation detectors/dosimeters, VOC, safety, IAQ, temperature, humidity, pH, conductivity, velocity, dust, particulate, rpm, speed, velocity, light, sound, air flow, pressure, hazmat, TIC's, CWA's & toxic chemicals monitors, solenoid valves, cryogenic, pressure regulators, controls, switches, sensors, indicators, miniature pumps, proportional valves, FTIR, IMS & confined space monitors.

Emerson Process Management is the Global Leader in Process Controls from the Field Instrument to the Process Controls to the Final Control Valve. Come see the latest award winning technologies for Pressure, Flow, Level and Temperature.

FLW, Inc. is an industry leader in physical measurement and control. Founded in Southern California in 1971 FLW has since grown to include 3 locations 11 Field Sales Engineers, 17 Product Specialists, and 6 Service Technicians all ready to serve you.

Horiba Instruments. Horiba's Process and Environmental

division is an industry leader in providing total solutions for protecting the environment, and for Industrial processing analysis, believing that our mission is to provide peace of mind, and to maintain safety and contribute to human health through the development of new technology and ideas.

iComTech, Inc., is an authorized MOXA, GarrettCom, Perle, Quatech, Opti-UPS, ADLink, and Mitsutech distribution and solution provider. iComTech is specializing in Automation Network Control Planning, Serial-to-Ethernet implementation of industrial equipment , and Embedded Technology Consultation. Our goal is to enhance the industrial infrastructure efficiency today while reducing power and energy consumption for tomorrow.

Inline Industries Inc. manufactures stainless and carbon steel ball valves and automation to meet the needs of power, process and high purity industries throughout the world.

Jensen Instrument Co. Since 1925, we at Jensen Instrument Co. have been committed to providing the best solution to our customers' process instrumentation and control needs. We can assist you in optimizing or solving any process problems, cost effectively.

JPR Systems Inc. has been providing engineered solutions to meet customer's instrumentation and fluid conditioning needs for the last 25 years. We represent leading companies in the measurement of level, flow, pressure, temperature, toxic & combustible gases, and pH & conductivity.

MAVERICK Technologies LLC. automate > integrate > accelerate

MRC Technologies, Inc. Instrumentation for the Municipal and Industrial Market Segments to include flow, level, pressure, temperature, water samplers, open channel flow and analyzers.

Control Engineering/National Automation Services, Inc. (NAS) is a leader in providing innovative,

cost effective solutions to process control and system integration challenges. Provided services include: SCADA & PLC Programming, Radio Telemetry Studies, Engineering & Design - AutoCAD, Field Service & Training, and Custom Panel Fabrication - UL-508 & UL-698.

Patten Systems is a manufacturers representative for instrumentation and controls products for the industrial and municipal markets, representing 3D Instruments, Moore Industries, Cameron Measurement Systems, L&J Technologies, Ronan, Sparling Instruments, BS&B Safety Systems, Kurz Instruments, ISE-Magtech, Raco Manufacturing, SOR Inc and Vishay BLH, and distributor for Meriam Process Technologies.

ProSoft Technology specializes in the development of communication solutions for local or remote industrial applications, including in-chassis communication modules for Rockwell Automation and Schneider Electric controllers, stand-alone protocol gateways, and a wide range of robust, field-proven wireless solutions.

Quantum Automation & Moxa - Manufacturer and supplier of IEC61850-3 Utility Communication devices such as Managed and unmanaged Ethernet Switches, Wireless G, Cellular Communications, Embedded Computers, and Serial to Ethernet Converters. Quantum Automation will also display the Productivity 3000 PAC and the C-more HMI.

Central California Instruments. Exclusive representatives & stocking distributors. Diversified Electronics, BelGas, Marsh Bellofram, Chino, Devar Inc, Dwyer, Dynaloc, Flowell, FMC Invalco, Graphic Controls, INOR, KEP, Magnum Pro, Marsh Instruments, Oakton, Perma-Cal Industries, PIC, PIE Practical Instrument Electronics, Precision Digital, Precision Instruments Valves and Manifolds, Pyromation Inc, Ralston Instruments, ReoTemp, Rosemount, United Electric Controls, Winchester.

REOTEMP is recognized as a leading ISO 9001 certified manufacturer and supplier of temperature and pressure instrumentation. We provide RTD's & thermocouples, bimetal thermometers, pressure gauges, diaphragm seals, transmitters, switches, and related accessories to a variety of process markets worldwide.

Rotork Controls is the world's leading manufacture of Electric, Pneumatic & Hydraulic Valve Actuators and associated Controls Systems, Valve Gearboxes & Valves Accessories - supported by the Rotork worldwide service network.

RuggedCom is a leading provider of rugged communications networking solutions designed for mission-critical applications in harsh environments. Our robust technology solutions include Ethernet switches, network routers, wireless devices, serial servers, media converters, software and professional services. We design products to serve oil and gas, water/waste water, chemical processing, metals and minerals processing applications.

Sage Designs. SCADA & Security Products.

S.C. Controls, Inc. - Instrumentation and controls supplier - flow meters & switches-liquids, gas and steam; level switches/sensors/indicators, temperature sensors, heaters, T/C wire, and controls; density and viscosity transducers; digital displays, signal conditioning, water quality(pH, ORP, conductivity) instruments, and gas sensors & detection systems.

TechPubs Communications. Publisher of ISA Section newsletters for Southern and Central California and Nevada providing marketing and publishing services exclusively to the instrumentation, process controls and automation industries.

The Fitting Source, Inc., a small, woman owned business, was established and incorp in 1983. We are proud to have earned the trust and loyalty of customers within the Aerospace, Heavy Equipment, Aircraft, Ground Support, Desalination, and NGV industries.

Wilmington Instrument Company. Instrumentation Sales and Service for Electrical, Electronic, Temperature, Pressure, Physical Mechanical, Calibrators and other products like flow, humidity, dataloggers, recorders, safety products such as FRC and Gas detectors.
